

Nex Mobile POS

Mobile shop management software for Pakistan

IMEI stock, one-tap sales, used-phone buying, khata and day closing for mobile phone shops, on a PC or an Android phone.

Every phone accounted for, by IMEI

Check-digit and duplicate checks, PTA / Non-PTA / JV status, condition, battery health and ageing badges.

One-tap sales, receipts on WhatsApp

Type the agreed price and tap **Complete sale** · Cash. Trade-ins, discounts, split payments, JazzCash and Easypaisa.

Used phones bought on one screen

Only the model and price are required. Add the IMEI and seller's CNIC when you have them; the **seller slip** masks the CNIC.

Khata, and a drawer that matches

Customer and vendor khata with WhatsApp reminders. Each day closes against **counted cash**: Short, Over or Exact.

35

reports, each in PDF & Excel

5

payment methods, incl. JazzCash & Easypaisa

25 / 1,300+

phone brands / models in the built-in catalog

2

roles, with costs hidden from salesmen

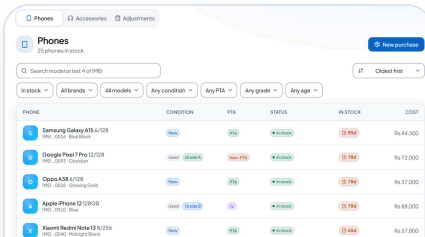

**NexMobilePOS**

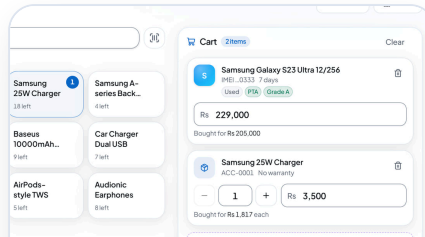

INSIDE THE SOFTWARE

From stock to day closing, in one system.

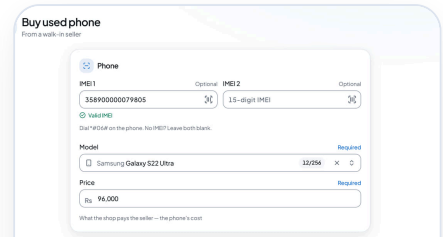

Real screens from the software.
The same shop opens on a phone.

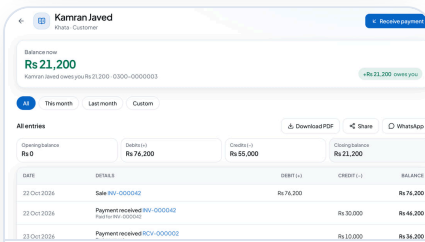

01 STOCK
Phone stock by IMEI
PTA status, grade, ageing badges and the full IMEI history.

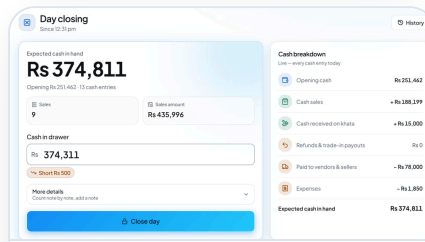

02 SELL
Point of sale
Company chips, warranty per item and the old phone in trade.

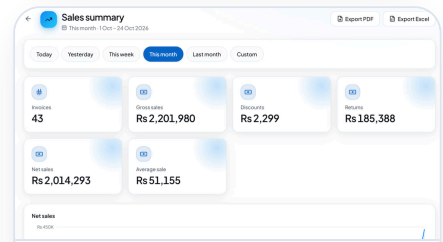

03 BUY USED
Used-phone buying
Model and price required; a slip link with the CNIC masked.

04 KHATA
Khata ledgers
Running balances, statements and WhatsApp reminders.

05 DAY
Day closing
Live expected cash; the count closes Short, Over or Exact.

06 REPORTS
35 reports
Sales, profit, stock and money, each in PDF and Excel.

Also included

Accessories by quantity

Vendor purchases on credit

Excel import of opening stock

Camera IMEI scanning

"Share this phone" ad card

Expenses & recurring bills

Owner push alerts

Activity log

Built for the counter and the owner**SALESMAN**

- ✓ Sells, shares receipts
- ✓ Takes khata payments
- ✓ Opens, closes the day
- ✓ Sees only own sales

OWNER

- ✓ Sees cost and profit
- ✓ Purchases and catalog
- ✓ Voids, vendor payments
- ✓ Alerts and activity log

Enforced on the server: a salesman never receives cost, profit, average cost or vendor balances.

How you get it

- 1 One installation per shop** on its own subdomain and database, set up and maintained by NexGenix.
- 2 Your shop's name and logo** in the app, on receipts and on slips.
- 3 Install it from Chrome** as an app, or the Android app from an APK file (not Google Play).

Good to know: English interface (User Guide in English and Urdu). Recording sales needs internet.

See it running.
